Section 3: Evaluation Criteria

Below are the Evaluation Criteria for all items.

- Price (**100%**)
 - Each bidder's price is used to identify their relative positions on a 0 - 100 price scale. This is done by allocating the lowest priced bid 100 points and calculating the remaining bidder's scores in relation to this scale.
 - Price will be considered for the whole commitment period, including installation charges and monthly rentals for the three years, or any other charges that may incur.
 - Price percentage = $100 \times (\text{lowest price} / \text{bid price})$
